

# Our Production Capabilities

## Products

Appliqués	In-Mold Decorating	Panels
Dials	Labels	Roll Labels
Digitally Printed Labels	Nameplates	Signs
Domed Labels	Overlays	Subpanel/Overlay Assemblies
Gaskets	Overlay/Membrane Technology	3D Formed Graphics

## Materials Available

3M Scotch™ Brand Adhesives	Polycarbonate
Acrylic	Polyester
Aluminum Foil	Polypropylene
Aluminum Sheet	Polystyrene
Flexible Vinyl	Pre-textured Polycarbonate and Polyester
Hard-coated Polycarbonate and Polyester	Rigid Vinyl
Miscellaneous Pressure Sensitive Materials	

UL (Underwriters Laboratory) Recognized Label Constructions  
CSA (Canadian Standards Association) Accepted Label Constructions

## Process Capabilities

Cold Embossing	Gradient Printing
Computer Aided Art Production	Hot Embossing
Computer Aided Monitoring	In-Line Inspection/Testing
Computer Color Matching	Laminating
Custom Slitting	Photo Electric Punching
Decorative Mechanical Finishes	Photo Electric Shearing
Die Cutting:	Selective Adhesives:
Conventional Steel Rule +/- .015"	Die Cut
Laser Steel Rule +/- .010"	Printed
Hard Tooling +/- .005"	Serializing
Digital Printing	Specialty Inks
Doming	Subpanel/Overlay Assembly
Flexographic Printing	Thermal Die Cutting
Forming	U.V. Printing/Coating
Four Color Process Printing	Mechanical Brushed Aluminum—full sheet or selective
